

LOUISIANA FIRST!

I'm Republican Xan John running for Louisiana Governor to give the citizens of this great State a seat at the decision-making table. The woke agenda is a race to the bottom and does NOT have a place in Louisiana. I support the Bill of Rights, the Constitution, the First and Second Amendments, Trump (but not his bump-stock ban or Warp Speed), Tucker Carlson, James O'Keefe, Bill Cooper, Ted Gunderson, and G Edward Griffin. There are only XX and XY chromosomes. I will fight for a pro-human future and to raise the standard of living. Louisiana has more oil and gas than most nations, we need to explore, drill, produce, and workover - NOT depend on OPEC or the UN. I stood up and told the truth in 2020 back when it was the hardest to be an outspoken patriot. Net-Zero fanaticism is dragging us back into the Dark Ages. How many candidates wore a mask and took mRNA - covering under pressure not realizing the bigger agenda. I'm here to expose injustice and stop puppets like Jon Bel from ever getting into office again. We never comply our way out of tyranny. We must empower the individual! So, ask yourself - Is your candidate pro-government or pro-freedom?

Landry will win 2 termsWilson would be a 3rd term of Jon Bel**No CBDC in Louisiana**No Fluoride in Louisiana Water**No/Less 5G**Kyle Rittenhouse & Daniel Penny are good Samaritans and heroes - George Floyd and Jordan Neely were violent felons**The overturn of Roe v. Wade and Affirmative action is good**

We need to rid: 1) Bill Gates of the 70,000 acres of farmland he owns in the State of Louisiana. He has an anti-human future composed of: visits with Epstein, lab grown meat, and owns the World Health Organization. And his Apeel spray is used on all our produce that forms triglycerides inside our bodies prompting heart attacks.

2) The radical democrats and Alexander/George Soros funded politicians.

3) Gun-Free Zones which never stopped school shootings and we should instead implement firearms safety training to familiarize minors with how to safely operate and exercise their 2nd Amendment Rights. Gun-free zones are easy targets for killers and good guys with guns are the best protection against such criminals. If democrats want to get rid of guns so badly and all gun owners are collectively to blame for a shooting then they should get rid of their own armed security. (rules for the, not for me)

4) Ethanol in fuel and corn syrup in food.

5) Gender surgeries/"gender-affirming care" and their clinics. Abortions and their clinics. Acid bath facilities for corpses, like in the State of Washington. Assisted suicide and their programs like in Canada. C.R.T., pride month, and drag queen anything for minors.

6) The fact that the Louisiana Bar added extra hurdles after passing the Bar like a "character investigation". When anyone passes the LA Bar - they ARE licensed! All this arbitrary data harvesting does nothing and is not justified. After the Juris Doctor and Bar exam are taken and passed one is clear to practice.

7) The top-down propaganda on the covid "plandemic", "climate change", proxy war in Ukraine, and "cyber-attacks" which are all used under the pretext to take away the rights of Louisiana citizens and force them to adapt to a lower standard of living. We must place the blame upward. These policies are unpopular on their face and are superimposed on us at the supernatural level.

8) Inventory, Ad Valorem, and franchise tax.

9) All these "studies" that delay improvement projects from becoming shovel-ready.

10) CBDC's/FedNow.

11) All Pharmaceutical advertising in the State of Louisiana.

12) Lab-grown "meat", soy, insects, fluoride, Round-Up, and GMO in the Louisiana food and water supply. Aspartame in chewing gum and diet drinks.

13) The fact we vote on iPads using Dominion Voting Systems who rigged the 2020 election for Joe Biden.

14) BlackRock, Inc's Corporate Equity Index(similar to the ESG score). Larry Fink is trying to "force" corporate behaviors which undermine our Republic and capitalism with a top-down movement of forcing woke ideology onto Western Civilization.

15) The provision of a "Hate Crime". It's an added tax to a sentence. Has a minority ever been charged with one? Remember the Darrell Brooks who drove his SUV into the parade? The news said the car did it... This provision is never applied equally and should be irradiated.

16) Property tax - it's immoral.

Louisiana lawmakers need to adopt: 1) Florida's:

A) i) H.B. 103 (2022) - Carrying of Firearms Without Licenses

ii) House Bill (HB) 543 which strengthens Floridians' Second Amendment rights by allowing Floridians to carry concealed weapons without a government-issued permit. HB 543 goes into effect on July 1, 2023, making Florida the 26th state to enact Constitutional Carry legislation

iii) CS/SB 214 - Sales of Firearms and Ammunition Act which prevents credit card companies from tracking the gun/ammo purchases a cardholder makes

B) The 'Florida Arms and Ammo Act' draws a line in the sand and tells multi-national progressive financial institutions, and their allies in Washington, that they cannot covertly create a backdoor firearm registry of Floridians - or else."

C) S.B. 1248, known as "The Ultimate Cancel Act," which digs deep into the Democrats' past, back to the 1800s when the party supported slavery, and under this Bill, registered Democrats would be automatically be re-registered as having 'no party affiliation' - crafted by Sen. Ingoglia.

D) Senate Bill 7072 to hold Big Tech accountable by driving transparency and safeguarding Floridians' ability to access and participate in online platforms.

E) SB 7054 Central Bank Digital Currency Legislation to ban CBDC - (also Kristi Noem of South Dakota vetoed a CBDC UCC "Update") - worth looking into...

F) Florida's Homestead Exemption - state bankruptcy law

2) Texas:

A) Self-Defense Laws i) "Stand your ground" Penal Code [Section 9.41](#) explains that a person is allowed to use force, but not deadly force, to terminate a mere trespass or interference with property.

ii) Castle Doctrine: affords people with the legal right to self-defense when private space, such as their home or vehicle, is intruded upon.

B) House Bill 957, passed in 2021, expressly exempts from federal regulation firearm suppressors that are made in and remain in Texas. Federal law regulates firearm suppressors, making it illegal to own a firearm suppressor for personal use without paying a tax.

C) H.B. No. 2889, introduced by Republican representative Bryan Slaton, would slash property taxes to nothing for opposite-sex married couples with 10 children or more.

D) H.B. 20, which prohibits large social media platforms from removing, moderating, or labeling posts made by users in the state of Texas based on their "viewpoints".

E). Senate Bill 147, which aims to prevent citizens of countries with hostile stances toward the US government from buying certain types of land in the state. Those countries include China, Russia, North Korea, and Iran.

3) Tennessee's: SB 0003/HB0009(2022) bill that seeks to classify drag shows as 'Adult Cabaret's' and ban performances in front of children.

4) Alabama's: Permitless Carry Bill implemented in January 2023.

5) Idaho's: A) House Bill 154 introduced by State Sen Tammy Nichols and State Rep. Judy Boyle making it possible to charge those who give mRNA vaccines in the State with a misdemeanor.

B) H71 "The Vulnerable Child Protective Act" which outlaws gender-affirming care for transgender minors; including puberty blockers, hormones, and surgeries.

6) Georgia's: S.B. 67 which is a SAPA or Second Amendment Prevention Act.

7) Missouri's: 1)SCS/HCS/HBs 85 & 310 - This act creates the "Second Amendment Preservation Act"(SAPA)- which is one of the strongest in the country.

2) HB 1169(2023) - PRODUCT DISCLOSURES: any product that acts as, or exposed to processes that could result in the product potentially acting as, a gene therapy or that could possibly impact, alter, or introduce genetic material or a genetic change into the user of the product or certain other people must be conspicuously labeled with the words "Potential Gene Therapy Product", and reasonable steps must be taken to ensure a potential purchaser or user is made aware of the presence of this label.

8) West Virginia's: SB10 - which will allow individuals with valid concealed carry licenses to possess a pistol or revolver on public college and university campuses.

9) Montana's: House Bill 645 which would make it illegal to donate or accept blood from Covid vaccinated individuals, applying a \$500 fine to each offense.

10) Oklahoma's: House Bill 1633 (HB1633) on Feb. 6th, 2023 - Under the proposed law, a retail establishment would be prohibited from requiring payment by credit card or a central bank digital currency during normal business hours. Retail establishments also could not legally prohibit the use of cash, nor penalize cash customers - introduced by Rep. Clay Staires (R)

11) Kansas's SB 180

12) Kentucky's: House Bill 153(a "2nd Amendment Sanctuary"), would prohibit local law enforcement agencies in Kentucky from enforcing federal firearm regulations - sponsored by Rep. Josh Bray, R-Mt. Vernon.

13) Hungry and Italy's: law protecting their citizens from insect proteins in food. Insects must not be labeled or marketed as "food" in Louisiana. We will not "Eat zee bugz!"

14) Indiana's: Senate Bill 480: Prohibits a physician or other practitioner from: (1) knowingly providing gender transition procedures to an individual who is less than 18 years of age (minor); and (2) aiding or abetting another physician or practitioner in the provision of gender transition procedures to a minor.

15) North Carolina's: House Bill 574, the Fairness in Women's Sports Act, that bans "students of the male sex" from participating in athletic teams "designated for females, women, or girls."

16) Arkansas's: 1)House Bill 1718 that makes gold and silver legal tender in the state, and effectively repeals the state capital gains tax on gold and silver. The passage can help eliminate barriers to using gold and silver in everyday transactions, a foundational step for the people to undermine the Federal Reserve's monopoly on money.

2) SB 330, Relating to Central Bank Digital Currency; to prohibit governmental agencies from using this type of currency as payment and from participating in testing the use of this currency by the Federal Reserve.

17) North Dakota's: House Bill 1522 that requires public school teachers to inform a student's parents if they identify as transgender and prohibits K-12 students from using restrooms that correspond with the gender they identify as, also bans schools from adopting policies that require or prohibit "any individual from using a student's preferred gender pronoun."

We need to: 1) Increase drilling on and offshore Louisiana and tap into our reservoirs with secondary and tertiary lift methods.

2) Adopt what makes Delaware, Florida, and Texas great.

A) Delaware's state law allows very easy, secretive, and protective business incorporation and has chancery courts that skip jury trials and has informed justice bench trials.

B) Florida state law has no State income tax taken out of paychecks, great bankruptcy homestead exemption, and establishing a grand jury to investigate mRNA and Big Pharma. Louisiana must rid its personal and corporate income tax and makeup revenue in other ways.

C) Texas requires no government permission to carry.

3) Make Louisiana a "Constitutional Carry State" - props to State Rep Danny McCormick and bring firearm safety classes back to schools and have this same class done by an LEO and have them explain the process of being pulled over and arrested. As of January 3rd, 2023, Alabama became the 25th State to allow "permitless carry". Louisiana needs to follow suit.

4) Ban 3D printed fake/beyond GMO "meat" with GMO soy statewide. GMO soy is especially horrible for men. Also BPA and toxic plastic and packaging liners.

5) Expand I-10's lanes @:

A) 90-degree turn by the Mississippi Bridge in Baton Rouge

B) the Pearl River MS border bridge

C) Lake Charles Bridge. These "pinch points" need to be at least 3 lanes eastbound and 3 lanes westbound with wide margins for emergency parking.

6) Give significant pay raises(at least 1/3 total salary) to the Louisiana State Police.

7) More Farmers Market and significantly less Amazon/Wal-Mart.

8) Help small businesses pay less tax, and have easier access to loans. More access to grants and tax breaks/loopholes.

9) Prevent access to the dark web and completely irradiate human trafficking.

10) Have colleges, high schools, and universities teach classes on trusts and foundations, modeled after families like the Carnegie, Gates, and Rockefellers, so we may avoid paying taxes and probate courts as they do with their "escape hatches & loopholes". And they should have mandatory classes on the origination and owners of the Federal Reserve Bank.

Make Louisiana Great Again! Demand Xan John! Number ___ on the ballot!

LOUISIANA FIRST!

- 11) Disabled Veterans pay no State taxes on anything ever.
- 12) Teach students and citizens about Jury Nullification. The right to say "No." Jurors have the inherent right to set aside the instructions of the judge and to reach a verdict of acquittal based on their own consciences.
- 13) Louisiana House Bill: 131 – Constitutional Carry – 2023
- 14) Establish The Department of Natural Medicine – healing without big pharma and alternative treatments that aren't patented or suppressed/black shelved – all should be an option.
- 15) Establish The Department of Stolen History – Orphan trains, State Constitutions that were rewritten in the 1860s, all the architecture deemed "Greco Roman", all the Asylums and Worlds Fairs – all need context.
- 16) SSRIs in the State of Louisiana. Completely ban them.

Is anyone talking about: 1) The unConstitutional gun grab during Katrina led by General Honoré.

2) A) The fact a puppet like Jon Bel was even able to win in the first place. We need voter integrity because no one ever heard of him before he ran and he has accomplished nothing positive for the State of Louisiana. Voter Integrity – never want a governor like Jon Bel to surprise us again. Trump endorsed Eddie Respone should have won. (Mainly in New Orleans and East Baton Rouge Parish because they carry the State.)

B) Jon's brother Daniel, the Tangipahoa Parish Sheriff, who has teamed up with his brother to funnel millions.

3) The case State v. Spell where Jon Bel had all his covid mandates destroyed and now there is a legal precedent to stop this kind of "Rule by Emergency" tyranny. Might I remind you Jon Bel, no government has jurisdiction over the truth! Vaccine efficacy and masks "stopping the spread" was a lie. The one-way in and one-way out of large department stores was a fire hazard and undermined the inspections fire marshals perform. The covid agenda was a litmus test by the NGOs and the democratic party to calibrate Jon Bel on criminalizing decent.

4) The fact that the: World Economic Forum, BlackRock, U.N., Trilateral Commission, Club of Rome, Tavistock Institute, Rockefeller Foundation, Carnegie Endowment, The Lincoln Project, Council of Foreign Relations, Cold Springs Harbor, and The Carlyle Group are literal thinktanks that try to control corporations to adopt woke leftist white bigoted ideology and destroy the Checks-and-Balances in place that maintain the sovereignty of Nation States.

5) The Twitter Files from Matt Taibbi and Elon Musk.

6) Gov. DeSantis didn't ban LGBT parades, he banned lewd conduct at the parades and now the LGBT cant use their orientation or political stance as a shield for their degenerate behavior.

7) How Landry will win and after him is where I come in with a track record for truth since 2020 when it was the hardest to stand up and be a patriot during the patented COVID era. He has sued Meta, is pro oil and gas, and is Donald Trump Jr endorsed. His case against the feds: Missouri v. Biden is causing havoc in the federal courts for the deepstate. I will carry the torch after his two terms.

8) How black history and pride month are nothing but democrat party propaganda disguised as or shielded as black or gay months. If one is against it they are deemed a bigot. If there is black or gay month there needs to be straight and Christian month – OR NO DESIGNATED MONTHS AT ALL! We are ALL Americans!

9) How bills and amendments are bum-rushed through with NO time to look over what is being voted for.

10) Atrazine, BPA, Glyphosate and their effects and presence in our drinking water. Or the connection between viruses and cancer or the connection between vaccines and autism
And to all the liberals out there: 1) Trump deserves his 2nd term.

2) One can try and ban guns all they want and even if they did... one can ever stop criminals from having them or 3D-printed guns. America would turn into a 3rd world country overnight. Democrats who are calling for national gun confiscation always have bodyguards WITH guns. When someone like Paul Pelosi is attacking another man with a hammer in his underwear – do we ban hammers nationwide and sue the manufacturers after? Americans aren't allowed to have guns but we can send millions of them to Ukraine? The letters "AR" stand for ArmaLite Rifle and the term "Assault Rifle" is made up. The left uses any shooting to weaponize private grief into political profit. We don't respond to tragedy by giving up rights. Do we want to save our freedoms more than those who want to take it away??? "Gun-Free" zones never stopped a school shooting.

3) Biden was selected, NOT elected!

4) Humans are NOT a failed species that are supposedly bad for the earth like our government tries to tell us we are.

5) The Constitution & Bill of Rights was created to enslave the government. Nothing may Trump the Constitution, NOR the Bill of Rights.

-Rid inheritance taxes, reign in on probate courts- make it easy to compound the family interest.

-Implement toll road turnpikes like Texas and Florida to accumulate State revenue.

-Incentivize business to headquarter here - do all we can to make Louisiana a tax haven - cut all the red tape and fees, people should incorporate here - not Delaware (REDUNDANT)

-Open up all coal mines (shut down by Obama) bring in medical grade CO2 like Denbury and Anadarko from the Jackson Dome in MS to do a tertiary recovery of old reservoirs. (REDUNDANT)

-Rid Roundup (glyphosate) and other toxic chemical production in the state. Stop the production of toxic chemicals to infiltrate their way into freshwater and food. (Caught lots of flack for this suggestion)

-More bigger nicer rest areas at all border entrances to the State on both sides. Copy the Buccoo's layout model and have a State-sponsored "Gas Station Welcome Area" (Boosts Revenue to State)

-Making Louisiana as close to a Tax-Haven like Monaco as possible. What makes Monaco so great – let's copy what we can legally.

-Institute "Xan John's War on Wokism" or W.O.W.

-There is no such thing as "junk D.N.A." we're just not allowed to know how spectacular our own genetics are so we can not unlock or manipulate them for greatness.

-Cancer is a curable symptom of an unhealthy body. Fasting, no carb/sugar diet, vitamin B17, positive energy, rest, and low stress are just a few of the ways to rid it. Big Pharma and the government want you to die on time/early.

ALSO: Will offer a weekly lottery for the "Governor for the Day" Program. Each Monday students who want a chance to win write down their name and school, Wednesday there is a drawing and every Friday the student who wins meets me at the steps of the Capital at 9 AM to join in shadowing me till 5 PM with dinner @ Ruths in BR following the work day. Will draw every week in my 2 terms.

- Racism will end when the democrats stop using it as a political weapon!

-I will not sit here and scramble all these definitions and blur lines, Men are men and women are women, the LGBT agenda/ the trans agenda is bad and born out of the Tavistock institute.

Texas 88(R) SB 11
Texas 88(R) SB 177
